One place I'll be sure to be shopping this weekend is [Kiss the Girls](#) clothing, where, if you shop online, you'll receive 20% off your entire order when you enter the code **KTG09**.

20% is a great deal considering my current favorite item on the site is the [magenta "I Make Luck" tee](#), which retails for \$62.

Kiss the Girl is very casual-chic, the sort of stuff you will see if you ever find yourself loitering around California...which I try to do as often as possible. It has a very vintage, custom look - also very trendy right now - I love to pair statement tees like this with my favorite summer capri's and gladiator sandals. It's sexy and feminine and comfy all at the same time!
